

The  Standard

[illegible]

correspondent who has not given his name sends us the following complaint:

"I have recently the usual luggage of a traveler on the Southern Railway here, and am surprised and pleased to find it unsuspended and replaced by commutation tickets. This, just in the midst of the busy season, is ridiculous. Loaded wagons are to be seen all down the line, and the passengers are crowded in 11 and 12 days. At one station (La-may), a little farther down the line, there are 120 loaded wagons."

The latest London papers* have had to report the following episode, which has recently occurred in Anarchist plot to blow-up the Spanish Parliament, Muñoz was man charged by the prisoners with having incited them to the outrage, was sentenced to 15 years imprisonment. As a last step, keeping the authorities informed of the conspiracy.

[illegible]

Mr. Feve, having grossly insulted the Germans, has now opened its vitals of truth on the National Government and the people. The great question of eight days' light allowed by President Pelloni have nearly expired, and it is to be hoped that H.E. will act vigorously in the case.

The Rev. Dr. Feve says that the new Conspiracy which Mr. Todor-o-mundo is planning is not attributed to the Radicals. Who's in the swim now? At President, religious reception on Friday night was the greatest crowd of Senators, legislators and big-wigs of all kinds; they all tried to present the Chief Magistrate on the present political mudslide, but failed; as the only topic that seemed to interest the great crowd of Senators and troops on the 25th, when seven thousand men were expected to muster in the Asilo Julio

them. When you separate a part you find this mucilage very hard, but it softens on being pounded, but nevertheless it is long before it will dissolve, but, if they soften into a closely united, homogeneous mass of yellow, gluey matter, having little or no flavour. They have a strong odour of turpentine.

The varieties differ in size from that of large walnuts to that of small peas, and also in shape, some being circular and others piriform, and in the colour of the seeds, some of any note as possible objects of trade. There are also three kinds of tree fungi, which grow on the trunks of the beech trees only. These are called *Ushaf*, *Ushaf*, and *Ushaf*, are archman, yellowish and *Ushaf*. Two other kinds, not edible, are found on the same trees, which often attain large dimensions. These are called *Ushaf* and *Ushaf*, are archman, yellowish and *Ushaf*. Two other kinds, not edible, are found on the same trees, which often attain large dimensions. These are called *Ushaf* and *Ushaf*, are archman, yellowish and *Ushaf*.

Mr. Editor.

Quilmes, May 10th.

As I have been afflicted with the catarrhes aeridie which assails so many other estimable people in these latitudes, I feel constrained to take up my pen in defence of the management of the *Probo Publico*, which has been attacked under it by "*Probo Publico*" in your issue of this date.

As a Quilmes resident, I cannot say that any literary service is perfect by any means, but I gladly admit that it is considerably improved of late years, and I prefer to believe that there is an honest endeavour on the part of the manager to do better.

With regard to the night train that "*Probo Publico*" is so eloquent about, I consider that the manager cannot be blamed for not having a night train. It is not his fault that he does not pay for a manager's first duty that towards the shareholders, and of whose property he is the guardian, and I maintain that he has no right to spend their money without getting them any return for it.

Of green food they use the leaves of
Weyta or dandyion, the leaves and
roots of the sea pink, also the roots
of the ovinum. Celery abundance, as also
water cress, and other cresses.
The nut is not much made use of.
The sweetish sap of the beech tree, called
Hanis, is much relished by the natives,
who call it Oosheuk. They obtain it only
in the summer by ripping off the bark
of the tree, and exposing it to the newly
exposed surface of the tree. As a sugar
producing substance it is not of any ma-
terial value, because of the cost of its
collection and the damage done to the
tree. The bark of the beech tree is of
material growth as fibre for sewing their
canoes, as when it grows thus it is found
to be very stringy, and though of a
different nature from the wood of the
same tree when it grows into a tree.
The beech tree, especially the kind known

at Sitka, is much used for building
boats, and I should be sorry to see
it become the "rus in urbis" which "Pro
Bono Publico" desires.

In conclusion, Mr. Editor, let me here
state that I am looking for the kind of
gentlemen writing in the cause of the
public should be animated by any per-
sonal motives or "animus" whatever,
but I cannot let pass unchallenged the
statement of the "manager" of the
line lived in Quilmes. He might then
have an opportunity of occasionally
going to the opera".

Surely, Mr. Editor, it is both un-
fair and unkind to impute that this
gentleman was ever on a special train at
a loss for his personal gratification.

Yours truly,
Impartial.

♦

THE POPE AND THE WORLD'S FAIR

number of bends of all angles, affording an endless supply of fences and forming a network of roads for ship and boat-loading purposes.

The greater humidity of the climate, even of Eastern Finland, results in a better pasture than prevails in Paganica, and even here according to the local conditions. The climate of all Finland is decidedly breezy; in the west, winds from West and South-West prevail much more than in the East, which is consequently experienced. North winds bring the finest weather, and those from S.E. to S.W. the worst. In the Northern parts of Onaland the camps are exactly like those of the North, and the same trials with their distinctive vegetation.

The Ona race that occupy the East of Finland are certainly a branch of the

unmistakably for the people, living by the sea. They use bows and arrows for game and birds, lances for seals and porpoises; they largely live also on shell-fish and fish, and use the same vegetable food, such as Yalgane. The curru, as so abundant in their country, are much used as food by them.

QUILMES TRAM ACCOMMODATION

Mr. Editor,

I am pleased to see so many gentlemen in Quilmes throwing down the gauntlet to the management of the Ezeiza Railway with reference to the above; as yet not one voice has been raised for that management in their own defence. "Pro Bono Publico" is too lenient; it

because it is a tribute of honor and gratitude to that immortal man, who, ambitious to find a channel for the progress of our civilization to the remotest corners of the world, was neither daunted by peril nor discouraged by privation. He pushed forward and renewed the links which connect the two portions of humanity that were separated, by which he did so much good that few men have equalled him.

In addressing this sincere and merited eulogium to the citizens of the great Republic, we express our warmest hope that this noble enterprise, with the assistance of other nations, may have the most prosperous results, which may serve to powerfully stimulate the genius of our countrymen.

Given in St. Peter's, Rome, in the year 1862 and the 45th of our Pontifical date.

where on the line; then he would see and feel for himself the disadvantages under which we live.

It is no doubt that English people came out here, lured by the good train accommodation at the time, but the service has been going from bad to worse these last 2 years; so much so that we cannot go to any other place in town without either leaving in the middle of it or staying all night. I for one will gladly sign a petition to the Directors, praying them to take this matter into consideration and to ignore us as they have always done.

Yours truly,
Anthony Victim.

Mr. Editor,
I am pleased to see that my letter on this subject has been the means of eliciting some further expression of

EDITOR'S TABLE.

Now, ladies and gentlemen, are you all ready for to-morrow night's treat, the Opera! Half if not, we'll never forgive you. Yesterday was the first anniversary of the founding of the Orphanage, and the balance sheet will be found on another column. It is very satisfactory and ought to act as a further stimulant on all the kind supporters of the institution who will muster in the old Opera Hall to-morrow night.

We are requested to announce that the Lomas Academy Athletic Sports, which had to be postponed on March 25th on account of inclement weather, will be held on the L.A.A.C. cricket field on Thursday afternoon, March 26th at 11 a.m. All those interested in the Academy are most cordially invited.

The suggestion of "Quilmore" that the Directors should be the approach to the subject is treated, however, with fruitless, unless it was shown that the inhabitants generally were anxious for the extra accommodation. I would suggest that some of the older residents should write to the Council, or start up a petition, and solicit signatures.

In answer to the "Victim" of an early start and 35 minutes shave, I may say that I have to go by the 7.34 train, and that I have to shave in the morning, winter, and formerly had to go by the 7.40 for the simple and sole reason that it was summer. I have also got to shave in the mornings by lamp light, and I have to shave in the morning and have therefore 20 minutes longer" in bed, a consideration these cold mornings.

Trusting the manager of the E.R. of the Calcedonian House, 549 Presford

has very kindly accepted of this and the first party will be on this on Monday and Tuesday.

The Belgrano Polo Club will practice game on clay, on their own ground at 2 p.m. every day, and they would be glad to play on that day. Mrs. Low has kindly consented to preside at the table.

BELGRANO. To be sold or let, together with the garden, two nice bedrooms, two rooms each with garden and stable, for sale or to let. Apply 131 Calle Bolivia b64 in 29

Dancing Lessons

Lessons in Dancing with
Gipsy Rhonda again yesterday. W. gave the right number of the

sent suffering; I am
Pro bono Publico.

Sir,
The Southern and Belgrano railways run late trains for the benefit of the public, whether they pay or not.
Supposing a railway pays no dividend, will the Directors close the line or keep it moving in the hope of the better future times?
If the 10 p.m. train from the General does not pay, try it at 6 o'clock, as 10 o'clock does not so early to see the finish of any entertainment in Buenos Ayres.
Ergo: It is not worth while going, and the Quilmeiros must grin and bear it, because Mr. Brown will visit them.
We call on all Argentineans to come forward smiling and give us what we want, which is nothing more

the Policema on Tuesday night, if Sardo's drama "Tosca," given for the first time in this city. It will be great lot.

A subscriber writes informing that it is currently reported that the Rev. Mr. Handcock, who for a short time was Curate of St. John's Church, Buenos Aires, has been put forward by the Bishop of the Falkland Islands for the Chaplaincy of Montevideo, the Rev. Cecil F. Luckman has withdrawn his name for nomination; while the Rev. Mr. Handcock is negotiating the Quilme Church people on retaining the service of so esteemed a clergyman.

These are little facts, very saturated, a powerful swimming flit to sustain either sheep or cattle.

Eastern Fierland, on the other hand describing its larger part, is an inland in which excellent pasture of variety of grasses prevails, and the land was wet and soggy the mountainous region is met with, where the climate and productions begin to assimilate those of western Fierland. In these districts many pleasant parks for settlements are to be seen, especially on the sides of the Beagle Channel, extending as far west as Yendeghe and towards the shores of Ponnony Sound. The west of Fierland, the possibility for more good settling, is not so good as the habitation. I might, however, perhaps have included fishing as one of its points of value, for the shores abound in excellent shell fish of many kinds.

A BRIEF ACCOUNT OF TIERRA DEL FUEGO.

(FOR THE STANDARD, BUENOS AYRES.)

Tierra del Fuego comprises the whole group of islands found south of the Magellan strait; its westernmost point being Cape Pillar, its easternmost Cape St. John, and its island.

In charts the name Tierra del Fuego, for the whole group, is found printed

evergreen, whose conspicuous blue abound in honey; the valuable *U. muscicola* (the musk bee) is found in the most charcal, whose food is found to supply cattle with fodder during the long winter, at season, strange to say, this bush is prime, being then in full foliage and bloom. One of the herbiferous produce, better known as 'cañafite', *Opuntia* fuscula abounds in the west and co. districts, where it attains a large growth size, as also the yucca. The latter of these varieties, abounds everywhere; its sweet black fruit in long bunches is very little value, tho' perhaps it is in their climate they would ripen and afford food for the natives. The *Opuntia* fruits. Of minor bushes have value for the berries, others for their foliage and flowers. I have with three varieties of calceolarias

the name, and made accordingly known to the natives. The name of the place given to the main island by early navigators was King Charles' Sound, which is certainly a very undesirable name because of its length. The name of the main island in its proper name Onaiti, which rendered into English is Onalalo, or the country of the Ona. This name is short and natural, and, if used, then the name of the main island would be Onalalo, used as the generic name of the whole group. Suitably, with the name 'Onaiti' for the whole of the main island, so its eastern end is called "Onaiti-ken," meaning "the land of Onaiti," and the western and south of the main from end to end is known among the natives as Onalalo, or Ona channel. The term Ona is applied by the Yatsyans to the native name of the island of Onaiti, the Theluchik Rybe, *Onaiti* *Onaiti*.

pronounced Oosnoof, is applied to the east end of Hoste Island, and means the heel or end of anything. They have a slightly sweet taste, are tough, and when mature (a considerable quantity of mucilage

Pacific Steam Navigation Company.

Special attention is directed to the reduced passenger fares to Europe by the Company's line.

(See General Advertisement on the next page.)

207 99

When you have your portrait taken you naturally want a GOOD one to ensure this you must go to a place that not only has the best apparatus, but also the best lighting, but, where also TIME can be taken into consideration. The most suitable light for the purpose is the "KODAK" light.

If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customer down to the very limit.

IT IS WISE to make his profit.

A NUMBER of persons have been of such a mind to prefer to go where fair prices are charged and every care taken to ensure the best work turning out at a moderate price as at the "Gren Fotografska Platsen" in Stockholm. Customers here are not driven away by excessively high prices do not refuse to be lured back by cheaply rendered pictures.

It were not to the vote of the residents in the Province of Buenos Ayres whether to federalize the whole Province or not, we feel convinced that there would be a sweeping majority in favor of federalization. The whole province should be federalized, and La Plata made the Capital of the Republic. This would reduce the Province to one-half its present, and save us from such melancholy lessons as afforded by the Corte Federal ordering the Province to be executed for one thousand dollars. Soon or late this reform must come, and the sooner the better, as the once famed Province of Buenos Ayres, with its Provincial and Hypothecary Banks in ruins, its railways all sold, and its Government now about to be executed, is a picture to make even Radicals weep.

THE BOYS' ORPHANAGE.

REPORT OF THE COMMITTEE.

230—FLORIDA—230

SAMUEL BOOTE
Proprietor and Manager.

The Standard

Nisi fides autem non tibi non auclam dicere.
CINCINNATI.

SUNDAY, MAY 22, 1892

TELEGRAMS.
(via Galveston.)

Chicago, 21st.—The latest estimate of the damage done by the overflow of the Missouri and Mississippi is \$70,000,000. The number of families plunged into want is appalling. The waters are now receding.

phage have the honor to lay before the public a report for the first year of working, which terminated on the 19th.

It may be well to recapitulate the origin and purpose of the institution. The Argentine Government, through the intervention of Mr. Alsina, Commissioner of Immigration, contributed a sum of 4,000 pounds, and the Committee arranged with the Lazarist Fathers to feed and educate the orphans at \$16 currency per head monthly. It was therewith resolved as the bases of the institution:

- 1st. That none but destitute children should be admitted, and that all children should be totally free of charge.
- 2nd. That the orphanage should be open equally to all English speaking boys between the ages of 10 and 15, but that in the case of Protestants they must bring a written request from H. M.

Previously announced that it would like the International Monetary Conference to be held in this city. In London also there is a party that would agree to this, but all another group is trying to have the Conference held in England. The number of people who are returning on the Caucasus is reported. Three villages destroyed, 27 people killed, and great number injured.

London, 25st—M. Gern, chief agent of the International Monetary Conference, arrived here yesterday to Anatolian Mission, one of the Anarstic districts.

Rome, 25st—A dispute between the Italian authorities and the police has arisen, owing to lately refusing to arrest some nuns who fled yesterday from the Santa Maria convent.

Tehran, 25st—Cholera is raging on

3rd. That no children having any infectious diseases should be admitted. On these principles the institution has been worked, and it is utterly false to say any children have been paid for by friends or others, although about 2000 children have been admitted.

We have great pleasure in saying that the health of the children has been excellent, and that the institution has been conducted with every regard to economy. The rent of the house is only 1000 tomans, the salaries of the staff 700, and the monthly quota to the Lazavist Fathers about 6000 currency. This last sum is payable in gold, namely 48 10 cents per head, as the Sultan has ordered. The children, at the rise of gold last July that he was unwilling to make a contract in currency for any length of time. This neces-

menments has been blown up with dynamite. Six workmen and two women were killed.

Port Louis (Mauritius). 21st.—A dread-panic has taken place enormous injury here. 1,200 lives lost. A village totally destroyed by fire.

Lagos (West Africa). 21st.—The British forces have just attacked the city of Lagos on the coast of the Gulf of Benue, which had blocked the trade with the interior. The latter were routed, the friendly tribes with the British having triumphed easily. The enemy's loss is not known. The British are marching on Zaria.

Sydney, 21st.—The Australian colonies have petitioned to be allowed to coin silver.

Paris, 21st.—The Deputies are discussing the Bill to spend millions of francs on new war vessels.

London, 21st.—The Government have announced that the present fall has caused a loss of 350*g* currency in the gold, but this has been in some measure counterbalanced by the arrangement of paying 6 months in advance last August whereby the gold market has been cleared of 100 *g* currency. Moreover, if gold were again to rise there would be no loss, as our compact with the Lazarists' Fathers obliges us to pay them 100 *g* currency.

The receipts during the year amounted to 15,038*g*, including 4,000*g* from the National Government, 738 bank interest and 10,905*g* donations or contributions from the public. The present year's receipts for the same period are 15,000*g* dollars more and nothing. The expenditure consisted briefly as follows:—

	\$
Rent.....	1,000
Matron and teacher.....	700
Special fees.....	600
Medical.....	200

PROVINCIAL EXECUTION.

Yesterday the Supreme Court granted four more judgment executions against the Province of Buenos Ayres, ordered that due notice be given to the Governor and the Fiscal General of the Province to pay up within ten days to the plaintiff, Julio Dumond, the following amounts:—

1 Treasury Bill for \$8,400,000 francs,	
2 " " " " "	
3 " " " " "	
4 " " " " "	
" " " " "	4,000.00

The Governor, through the Fiscal; denies the power of the Court to execute the Province, and in a previous case the execution has been refused by the Court, has refused to pay; but the Supreme Court insists on its jurisdiction.

Clothing.....	600
Washing and sundries.....	528
Total.....	10,928

It will be observed that besides the Matron there is an English teacher whom we find absolutely necessary at English schools, and in consequence of the Lazaris' Father. The sanitary arrangements of the house are perfect having been newly laid down and including reeling and shower baths for greater precaution against cholera which is boiled and filtered. We had occasion to send four boys to the British Hospital for a few days, and take this occasion to thank Dr. O'Connor and the nurses of the hospital for their kindness and the way they taught English, French and Spanish, and are well fed, since they get the same food as the Lazaris.

of the Province be followed by sale, the latter would be an utterly and fully incredible fact the Province of Buenos Ayres should be reduced to so low an ebb: that, for paltry sums which each camp 'pulpero' could meet, the rank and dignity of the Argentine Republic would be in the hands of the Courts, and even ordered a Federal State of the Republic ordered for hardly the amount of an ordinary tailor's bill. That the Province, owing to the crisis, and to the want of a service of its foreign debt, or even pay to the Mortgage Bank the quarterly service on the Cédulas it owes, is, perhaps, not so much wondered at; but that it should be reduced to a few hundred dollars, and allow execution to be marked against it for such a sum, shows an utter want of regard for provincial sovereignty, and a throwing odium and ridicule on the Argentine Republic. It is to be regretted that the Government will continue this its generous subsidy of \$8,000.

The point raised by the Provincial Fiscal, claiming for the Province of Buenos Ayres an exemption, or privilege, which Queen Isabella had granted to the city of Buenos Ayres, is but another example of the untutored Republican mind in this country. If the Fiscal is right, then Buenos Ayres is not a federal province of a Constitutional Republic, but rather a Constitutional Principality, or a Turkish Principality or a province of Soudan. The Fiscal can never win his point so long as there are free, enlightened and independent judges in the Supreme Court, and in the Province of Buenos Ayres to pay its *sals*, *it's* *letra*, *it's* must be executed and sold out, the same as any *hijo de vecino* "in the late crisis."

There is, however, another and a higher principle in consideration in this question, namely, the policy of the National Government in tolerating such a scandal.

that a joint-stock company situated in	May.....	350	425
